The Industrial Fund and King Faisal University Sign a Cooperation Agreement to Launch the Industrial Business Incubator Program

The Industrial Fund signed a cooperation memorandum with King Faisal University to launch the Industrial Business Incubator Program, aimed at supporting entrepreneurs and transforming their ideas into viable projects within the industrial sector and other sectors.

The program includes providing technical programs to support and develop emerging projects, and it seeks to strengthen collaboration between both parties by leveraging technical and financial expertise to support industrial and economic development in alignment with Vision 2030.

The Industrial Fund is a Platinum Partner in the Supply Chain and Logistics Conference

The Industrial Fund participated as a Platinum Partner in the Supply Chain and Logistics Conference in Riyadh, where it showcased its financing programs and advisory services to support the logistics sector and develop supply chains, in alignment with Vision 2030.

Since 2019, the Fund has expanded its support for the logistics sector, investing over 58 billion SAR in 2024, and forming strategic partnerships with the Ministry of Transport and Aramco to enhance sector integration.

Our News

The Industrial Fund participates in IKTVA 2025 to showcase financing and advisory solutions

The Industrial Fund participated in the activities of the IKTVA 2025 Forum and Exhibition, held at Dhahran Expo from January 13 to 16, to showcase financing and advisory solutions aimed at supporting industrial investments, localizing supply chains, and increasing local content.

As part of IKTVA 2025 activities, Mr. Ziad Al-Afalq, Director of Business Development at the Industrial Fund, took part in a workshop titled "Introduction to the Supply Chain Financing Program in collaboration with (Aramco, Manafa, and Taulia)." During the workshop, he highlighted the Fund's contributions to stimulating the localization of supply chains for major companies.

Our News

The Industrial Fund Presents a Workshop on Incentive Standards for the Industrial Sector

Representatives of the Industrial Fund presented a workshop on “Standard Incentives for the Industrial Sector” to introduce the incentives provided by the Fund, in collaboration with relevant authorities, that aim to empower national industries and enhance their sustainability.

القرار 172

The documentary film

#Decision_172 tells the story of fifty years of lasting impact.

The Industrial Fund launched a documentary titled #Decision_172, which tells the story of its establishment in 1974 based on Royal Decree No. (M/3) and Cabinet Decision No. 172 during the reign of King Faisal bin Abdulaziz Al Saud – may God have mercy on him.

The film highlights the vital role the Fund has played in supporting industrial sectors and developing national talents over the past fifty years. It also showcases its impact in achieving the goals of Saudi Vision 2030, which aims to transform the Kingdom into a leading industrial power and a global logistics hub.

The documentary also sheds light on the Fund's contribution to empowering entrepreneurs and industrial companies, encouraging them to establish promising projects, by presenting success stories of several national companies and factories that have benefited from the Fund's support over the past decades. These stories are being shared for the first time.

It is worth noting that the documentary film "#Decision_172" garnered over 160,000 views on YouTube.

Global Industry News

Global companies are striving to develop satellite radar technologies

The number of companies operating satellites equipped with imaging radar has increased to meet the growing demand for precise surveillance.

Finnish company "Iceye" confirmed that its satellites are capable of detecting military equipment and identifying targets under tree canopy with an accuracy of 25 cm. A report also highlighted the superiority of American companies in this field, thanks to regulatory reforms.

Global partnerships in Saudi Arabia are enhancing industrial transformation on an international level

The Industrial Policy Forum in Riyadh witnessed the signing of strategic partnerships aimed at enhancing industrial cooperation, with a focus on environmental sustainability, innovation, and addressing economic challenges.

The forum also discussed the role of digitization and artificial intelligence in sustainable manufacturing, as well as Saudi Arabia's efforts in transforming gas into high-value products. Participants emphasized the importance of integration between entities and the role of industrial cities such as Jubail in driving industrial growth.
